Vision

You need to be laser focused on exactly what it is you want to achieve. You wouldn't go on a holiday without planning, so why would you leave your life to chance?

Passion

Motivation is driven by passion. Own your vision for the future and treat it as you would any other possession you have - take care of and nurture it.

Timeline

Decide what steps are required to reach your goal. Write down the date you'd like to achieve it and the dates by when you'll finish each step. Review this every day.

Commitment

A strong drive brings strong results. Why do you want this goal and what does it mean for you? Being clear on your motivations will keep you committed.

Belief

You must have 100% faith that you can transform your life and get the success you want. You need to want to change and make the leap.

Urgency

Nothing focuses the mind more than the feeling of imminent threat. Create a sense of emergency about reaching your goal. And if this is what you want, why are you waiting?

Focus

Write down what your goal is and focus on it every day. Your mind will know this is what you want and will help you move toward the goal.

Accountability

Develop a network of friends and acquaintances that you can rely on to give objective feedback and advice. They'll also keep you accountable.

Health

Keep yourself fit, watch your diet and keep your mind active. You've got places to go, so you want to be the best you can be to get there.

Gratitude

Give thanks every day for the skills and experience you have that will carry you through to success and for the progress you've made in reaching your goal, however minute that might be.

In conclusion

So there you have it – my 10 steps to achieving success **faster!**
